Dear Mr. Rehder:

Enclosed is the Final Proposed Plan for Operable Unit 1 (881 Hillside) for your review and approval. Based on comments received on the previous version, DOE intends to go ahead and prepare the newspaper advertisement for submittal on or about May 10, 1996. The public comment period is scheduled to start on May 13, 1996, and last 60 calendar days, or until July 12, 1996. The Public Hearing will be held in conjunction with the regularly scheduled Environmental Restoration Quarterly meeting, on June 19, 1996.

In addition, DOE is supplying the soil gas Sampling and Analysis Report, which was used to delineate the extent of the potential contamination.

Submittal of the Final Proposed Plan and the report meets the requirements established by the Dispute Resolution Committee on August 25, 1995. DOE appreciates the effort by CDPHE and EPA in expediting this review. If you have additional comments or would like to discuss the documents prior to the above meeting, please call Dave George, the DOE ER Progress Assessment Team Leader at 966-5669.

Sincerely,

Bob April, Lead
Stakeholder and Environmental Liaison Group
